

INTRODUCTION

We offer a variety of workshops and classes both in the studio and from the comfort of your own home. Many classes are scheduled within the same week so you can combine each class for the ultimate in training options – take one, take all or take them as your schedule allows.

We firmly believe that all design related programs start with good, solid interior design principals. Each program varies the amount of hands on training you receive both in the studio and during the home study portions (if applicable). We are happy to answer any questions you may have to make sure you find the best program for you.

All of our professional programs are recognized by a variety of organizations. You may earn a certificate and/or certification in your chosen field.

We understand there are myriad training options available to you today. Please read all about what you should know about training and certification [here](#).
